

Nurdaulet Teshebayev

BACKEND DEVELOPER/ RESEARCHER

Education: postgraduate
Date of birth: 25.05.2000
Country/City: Almaty, Kazakhstan
Phone number: 87760432000
Email: teshebayevprof@gmail.com
Blog: <https://teshebayev.github.io/>
Github: <https://github.com/teshebayev>

EDUCATION

8D07116 – INTELLIGENT CONTROL SYSTEMS

06/2028 (expected), (Full-time)

Faculty of Information Technology and Artificial Intelligence, Al-Farabi Kazakh National University, Almaty

7M07115 – MACHINE LEARNING AND DATA ANALYSIS

06/2024, (Full-time), GPA 3.82/4

Faculty of Information Technologies, Al-Farabi Kazakh National University, Almaty

5B070200 – AUTOMATION AND CONTROL

06/2022, (Full-time) GPA 3.87/4

Faculty of Information Technologies, L.N. Gumilyov Eurasian National University, Astana

ADDITIONAL EDUCATION

Data Science (Advanced training course / TechOrda voucher)

05/2023

Outpeer.kz, Almaty

Machine Learning and Data Science (Research Internship)

04/2024

International IT University (IITU), Almaty

CHINA-CENTRAL ASIA ADVANCED COMPUTIN TRAINING PROGRAM

01/2026

Huazhong university of Science and Technology(HUST), China

WORK EXPERIENCE

01.10.25 – present

RESEARCH SCIENTIST/ “FARABI UNIVERSITY”

Job responsibilities:

- Leading a research team working on Embodied AI, including Vision-Language-Action (VLA) models, and preparing research articles.
 - Applying PEFT techniques, including LoRA and QLoRA, and alignment methods such as RLHF, DPO, and PPO for large language models, inference optimization.
 - Building agentic AI workflows using LangGraph, LangChain, Qdrant (hybrid search), LangSmith, FastAPI, Docker, and vLLM.
-

- Teaching a Machine Learning course as a lecturer.

02.12.24 – present

BACKEND DEVELOPER / TOO “SPARK DIGITAL”, ALMATY

Job responsibilities:

- Developing a Warehouse Management System (WMS) and designing interfaces for data collection terminals (DCT/TSD).
- Collaborating with Zikoo Robotics (China) on an automated warehouse project: WMS development and integration with Warehouse Control Systems (WCS).
- Integrating client web services via API
- Digitalizing internal documents for the "Spark Docs" service using OCR (Optical Character Recognition) technologies.

02.01.24 – 30.11.24

BACKEND DEVELOPER / TOO “META LOGIC”, ALMATY

Job responsibilities:

- Developing web services and integrating with external systems via REST and SOAP APIs, including integration with POS terminals.
- Developing an AI agent (ICDA) , based on the organization’s knowledge base using RAG and data parsing from multiple sources.
- Building a system for classifying client support tickets.
- Building a Telegram bot for warehouse data collection (DCT) using aiogram.

PROFESSIONAL SKILLS

VLA, LLM , VLM, CV, Python (Pandas, Scikit-learn, PyTorch, Transformers, TRL, PEFT, Fast API), ML, DL, Control Systems Design (PLC, SCADA).

PERSONAL QUALITIES

Analytical thinking, problem-solving, lifelong learning, attention to detail, adaptability, research-oriented mindset.

LANGUAGES

- English (B2)
- Kazakh (Fluent)
- Russian (C1)

AWARDS

2nd Place, National Student Olympiad in Automation and Control engineering (Awarded for academic excellence and practical skills in engineering.)

Recipient of the Scholarship of the Foundation of the First President of the Republic of Kazakhstan (Prestigious scholarship awarded for outstanding academic performance and research potential.)

Yessenov Foundation Grant Winner (Additional Education Program) (Competitive grant for professional development and soft skills training.)

Tech Orda Program Winner (Astana Hub) (Grant/Voucher recipient for advanced IT training (outpeer.kz Data Science course)) , 2022-2023.

CERTIFICATES

3rd Place, National Student Research Competition (Automation and Control), D. Serikbayev EKTU, 2022.

2nd Place, International Agentic AI hackathon with e-commerce project, Digital Farabi.
